Job Description

The Kansas State Veterinary Diagnostic Laboratory is seeking applicants for a Research Assistant. This position is to develop and validate molecular diagnostic assays for the detection and differentiation of animal, zoonotic and food-borne pathogens. The position also provides diagnostic services using existing and newly developed molecular diagnostic assays.

Required Minimum Qualifications:

Bachelor degree

Experience in molecular biology, especially in molecular assay development and validation; knowledge and experience on basic bioinformatics including sequence analysis and molecular assay design.

Preferred Qualifications:

Research Assistant (Veterinary Diagnostic Laboratory)
Kansas State University
