Department of Infectious Diseases and Public Health, Jockey Club College of Veterinary Medicine and Life Sciences

City University of Hong Kong is a dynamic, fast-growing university that is pursuing excellence in research and professional education. As a publicly-funded institution, the University is committed to nurturing and developing students' talents and creating applicable knowledge to support social and economic advancement. The University has nine Colleges/Schools. As part of its pursuit of excellence, the University aims to recruit outstanding scholars from all over the world in various disciplines, including business, creative media, data science, energy and environment, engineering, humanities and social sciences, law, science, veterinary medicine and life sciences.

The Department of Infectious Diseases and Public Health was established in July 2017. Its mission is to achieve and sustain excellence in teaching and research in veterinary studies through advancing the understanding of the interconnectivity of animal and human health. The Department is well positioned to provide a strong link between the preclinical veterinary sciences and applied (clinical) veterinary medicine. In another dimension it focuses on One Health, an area spanning the health of animals, humans and the environment. The Department plays a key role in teaching students in the Bachelor of Veterinary Medicine and providing postgraduate research training. Departmental academic staff members undertake teaching and research across their areas of specialty, and are actively engaged in enhancing the profile and effectiveness of veterinary training, public health and applied research through partnership and strengthening links with industry, business, commerce and other institutions locally and internationally.

Applications and nominations are now invited for the above posts. Please visit the following links to view the duties and requirements of the respective posts.
