Job Description

The Department of Veterinary Clinical Sciences at Louisiana State University is searching for an Assistant/Associate/Full Professor of Dermatology. This position will provide service in dermatology in the Veterinary Teaching Hospital at the School of Veterinary Medicine.

The dermatology service at LSU operates on a four day a week clinical schedule, and has a resident and a full-time trained dermatology technician, in addition to a second full-time faculty dermatologist. Between five and six students are typically on each two-week clinical block.

Posted Feb. 13, 2020, set to expire Jun. 15, 2020

We have an excellent and cordial working and collaborative relationship with our internists, orthopedic and soft tissue surgeons, ophthalmologists, medical and radiation oncologists, radiologists, clinical and anatomic pathologists, anesthesiologists, cardiology service, primary care service, emergency and critical care service, exotics and wildlife service and integrative medicine service, not to mention our equine and food animal services. We are happy to see and consult on a wide variety of species. Ample opportunities exist for collaboration with both clinical and basic science faculty.

We anticipate moving into a brand new purpose-designed 40,000 square foot building adjacent to the main SVM hospital in late 2020. This building will include the dermatology, primary care, ophthalmology, integrative medicine and theriogenology services, as well as faculty and house officer office and meeting space, outpatient pharmacy and clinical teaching laboratories. The dermatology service will have a spacious examination and treatment area with natural light (immediately adjacent to a dedicated multimedia rounds room), as well as dedicated patient housing and client consultation rooms.

Other facilities at the LSU SVM include a full-service state of the art radiology suite (including digital radiography and fluoroscopy, picture archiving and communication system as well as ultrasound, CT and MRI capabilities for both large and small animals), a brand-new state of the art linear accelerator and radiation therapy suite, a newly constructed animal diagnostic laboratory and a freshly remodeled laboratory animal facility. We have also recently launched a comprehensive, searchable medical records system.

JOB RESPONSIBILITIES:

Assistant, Associate, or Full Professor of Dermatology (Tenure Track)

50% - Provide clinical expertise and deliver dermatology services for all species: Provide direct patient care for animals presented to the Veterinary Teaching Hospital. Participate in and help supervise the veterinary dermatology service of the Veterinary Teaching Hospital. Cooperate and collaborate with other clinical faculty in the Veterinary Teaching Hospital. Support the local veterinary community via consultation with referring veterinarians and involvement with the SVM dermatopathology service. Participate in intern and residency training programs in the Veterinary Teaching Hospital.

50% - Scholarly activity to include teaching, service and research: Participate in the didactic and tutorial instructional programs of the School of Veterinary Medicine. Cooperate with other faculty members in the development of teaching programs, visual aids and other instructional materials. Participate in the school's research program. Participate in continuing education and public relations programs of the School of Veterinary Medicine. Participate and actively contribute to committees at the departmental, school and/or university levels.
