Job Description

The Laboratory for Equine and Comparative Orthopedic Research (LECOR) is seeking applications for postdoctoral and graduate student positions.

The applicants will join a group investigating orthopedic adult stem cell applications. The successful candidates will work under the supervision of senior research scientists, as well as with collaborators from within the Louisiana State University School of Veterinary Medicine, the Louisiana State University Medical School - New Orleans and the Pennington Biomedical Research Center. Investigative methods employed include cellular molecular, genetic (RNA and DNA) and compositional analysis, histology, cell culture and surgical techniques. Information on the Laboratory for Equine and Comparative Orthopedic Research, the School of Veterinary Medicine, the LSU Medical School in New Orleans and Pennington Biomedical Research Center can be found at:
