member of the Senior Leadership team, the Director of Research is responsible for overseeing all discovery research activities, which includes representation of the organization to national and international stakeholders, funders and collaborators, coordination of research activities, attracting research funding, resource allocation, communication and performance.

For questions related to this position, please contact Dr. V Gerdt, Director and CEO of VIDO- InterVac (volker.gerdt@usask.ca).

Required Skills

We are looking for an outstanding individual with a record of accomplishment and expertise in human or animal health research. The successful candidate should demonstrate excellent leadership skills and experience in managing a large research portfolio. A PhD or equivalent degree with a minimum of 8-10 years of research experience is required. Excellent communication skills and the ability to work in a team are critical.

Company

VIDO-InterVac is one of Canada's largest research organizations focused on infectious diseases of humans and animals. The organization has currently >150 staff and some of the most advanced infrastructure in the world, including the International Vaccine Centre (InterVac), one of the largest high containment facilities in the world. The organization is currently constructing a state-of-the-art level pilot-scale GMP manufacturing facility. For further information please review the VIDO-InterVac website at www.vido.org.

EEO/AA Policy

Note: The University of Saskatchewan is strongly committed to a diverse and inclusive workplace that empowers all employees to reach their full potential. All members of the university community share a responsibility for developing and maintaining an environment in which differences are valued and inclusiveness is practiced. The University welcomes applications from those who will contribute to the diversity of our community. All qualified candidates are encouraged to apply; however, Canadian citizens and permanent residents will be given priority.
