Job Description

The Department of Clinical Sciences in Cummings School of Veterinary Medicine at Tufts University invites applications for a full-time faculty appointment in large animal internal medicine (LAIM) at the assistant professor level in the clinical or unmodified track, depending on the interests and strengths of the applicant; both tracks are eligible for continuous term (tenure-equivalent). The successful applicant is expected to provide advanced internal medicine care in the Hospital for Large Animal (HLA), contribute to pre-clinical and clinical teaching in the DVM program, to mentor residents and interns, and to engage in research and scholarly activity. Current research strengths in LAIM include respiratory medicine, clinical pharmacology, and critical care medicine. School research strengths include infectious disease and global health, clinical and translational research, and animals, humans, and societal impact.

The HLA (<https://vetmed.tufts.edu/hospital-large-animals>) is a full-service hospital with an annual

caseload of approximately 2000 cases. Competition and pleasure horses are the majority of the caseload (85%), with the remaining caseload primarily comprised of small ruminants, camelids, and companion swine. In addition to internal medicine, specialty services include surgery, ultrasound, and equine sports medicine. The HLA is supported by outstanding diagnostic imaging, cardiology, dermatology, ophthalmology, and anesthesiology services. Sophisticated diagnostic facilities include a pulmonary function laboratory, endoscopy, gastroscopy, ultrasonography, new Aquilon™ CT with the Qalibra™ setup, 3T MRI, nuclear imaging, overground endoscopy, a comprehensive veterinary diagnostic laboratory, a state-of-the-art isolation unit, and an indoor sports medicine arena. Cummings School also provides reproductive, equine, small ruminant, and food animal field services in Woodstock, CT.

We seek an enthusiastic, team-oriented clinician who will provide outstanding patient care, client care, and service for our referring veterinarians. The service is currently composed of three LAIM specialists. A full-time technician is dedicated to the service and a team of technicians provides 24-hour medical care to hospitalized animals. Intern and resident training are important components of this position, with four LAIM residents currently enrolled in the program. Daytime medical emergency and intensive care cases presented to the HLA are admitted and managed by the Large Animal Medicine service. Clinical service includes after-hours backup of interns and residents on nights and weekends as part of a large animal faculty rotation.

Clinical track appointments are weighted to clinical and educational activity, but faculty members are still expected to engage in sufficient research and scholarly activity to remain at the forefront of their discipline. Unmodified track appointments are intended for faculty members who wish to develop a strong independent or collaborative research program supported by external funding, in addition to excellence in clinical and educational activities. The distribution of activities is dependent on appointment track, typically ranging from 26 - 34 weeks for clinical activity, 4-8 weeks for classroom and laboratory teaching, 4 - 15 weeks for research and scholarly activity, and 4 weeks for administrative service at the assistant professor level. Faculty are initially provided 4 weeks of vacation, plus one week of other time off. The university also recognizes 14-15 other holiday or bonus days.

Qualifications

Must hold a DVM or equivalent degree. Completion of a residency program in large animal internal medicine approved by the American College of Veterinary Internal Medicine (ACVIM) or the European College of Veterinary Internal Medicine by the effective date of appointment is required. Board certification is required at, or no later than two-years following, the date of hire. Demonstrated interest

and aptitude in teaching at all levels is required. Passion for and productivity in clinical research is desirable.

Preference for a clinical track position will be given to those with excellent clinical skills and potential to develop a strong clinical reputation. Preference for an unmodified track position will be given to individuals who have the potential or demonstrated ability to develop an independent or collaborative externally-funded research program. Experience and interest in research relevant to the strengths of the department or the school are considered an asset. Salary will be commensurate with qualifications and experience.

Application Instructions

Review of applications will begin April 1, 2024, and the search will be continued until a suitable candidate is identified. Start date is negotiable, but the position is available immediately. Candidates should submit a curriculum vitae and a cover letter describing their qualifications, clinical experience and interests, research and scholarly interests, and teaching experience. Please address your strengths/experiences in creating an inclusive environment as it relates to teaching, research, and/or service in your cover letter. The names, addresses, phone numbers, and e-mail addresses of three references should be provided. Applicants should [submit materials through the Interfolio link](https://apply.interfolio.com/141905) (<https://apply.interfolio.com/141905>). For questions about the application process, please contact Dr. Leslie Sharkey at Leslie.Sharkey@tufts.edu.

Cummings School is situated in Grafton, MA on a 600-acre pastoral campus, forty-five minutes west of Boston and next door to Worcester, the second largest city in Massachusetts. A virtual tour of the campus is [available here](#). There is a regional rail service stop adjacent to campus and easy access to cultural and sporting events. The campus is a short drive from beautiful beaches, mountains, and other unique features of New England. The area is a hub of biotechnology and higher education. The K-12 education system is excellent. Housing is readily available close to campus or in any number of surrounding towns. Links to faculty policies and procedures and human resources benefits can be found [here](#).
