Job Website	https://apply.interfolio.com/143991
Apply By Email	
Job Description	

The Department of Clinical Sciences in Cummings School of Veterinary Medicine at Tufts University invites applications for an assistant professor or an assistant clinical professor of cardiology. This is a continuous-term (tenure equivalent) track position that can accommodate research and clinical interests depending on the goals and experience of the candidate. We seek an enthusiastic, team-oriented faculty member who will provide outstanding advanced care for cardiology patients, excellent service to our clients and referring veterinarians, and contribute to research and teaching at the Cummings School. In addition to clinical rotation teaching, formal instruction in the DVM program and education of house officers is expected. There are opportunities for pedagogical innovation and leadership associated with a planned curriculum revision.

The cardiology service provides care in the Foster Hospital for Small Animals (FHSA) and the Hospital

for Large Animals (HLA) on the Grafton campus. The FHSA and HLA are fully equipped multi-specialty teaching hospitals, offering referral services and 24/7 emergency care. The FHSA caseload is primarily dogs, cats, and exotic species, with approximately 35,000 cases per year. The cardiology caseload typically consists of referral cases and animals admitted by the emergency service in the FHSA for cardiovascular emergencies.

The cardiology service has 3 ACVIM Cardiology diplomates, 3 cardiology technicians, 3 cardiology residents, and 1 cardiology research intern. We aim to have 2 cardiology services working simultaneously each week, with one service devoted primarily to inpatients and internal consultations, and the other service focused on outpatient appointments. Our service has a strong interventional caseload with cardiac catheterization procedures occurring almost every week. We also perform various hybrid cardiac interventions in conjunction with our surgery service. The cardiology service has access to fluoroscopic equipment, computed tomography, a 3T MRI, and transesophageal echo. Faculty are expected to assist with specialty board review sessions, journal club, and other aspects of resident training, including supervision of resident research projects.

Cummings School has research strengths in clinical and translational research, supported by a Clinical Trials Office. Current areas of research in the group include canine mitral valve disease, cardio-oncology, nutritional heart disease, and clinical management of canine and feline cardiovascular disease. There are many opportunities to develop independent or collaborative research projects with faculty on this campus or with researchers on other Tufts campuses and within the New England medical community. All types of research and scholarly activity are valued in the school's promotions process.

Between 26 - 32 weeks will be assigned to clinical activity, depending on the interests of the candidate. The remaining time will be distributed to teaching, research and scholarly activity, and administrative service, in accordance with the guidelines of Cummings School. Vacation and university time off is 5 weeks.

Qualifications

Must hold a DVM or equivalent degree. Completion of a residency program in cardiology meeting the requirements of the American College of Veterinary Internal Medicine Cardiology specialty, or a similar specialty organization, is mandatory. Board certification in cardiology is required at, or no later than two years following, the date of hire. Excellence in clinical cardiology appropriate for the stage of career is expected. Demonstrated interest and aptitude in teaching at all levels is expected. Experience and interest in research relevant to the strengths of the department or the school are considered assets. Salary and track will be commensurate with qualifications and experience.

Application Instructions

Application review will begin May 6, 2024 and will continue until a suitable candidate is identified. The start date is negotiable, but the position is available immediately. Candidates should submit a curriculum vitae and a cover letter describing their qualifications, clinical experience and interests, research and scholarly interests, and teaching experience. Please address your strengths and experiences in creating an inclusive environment as it relates to teaching, research, and/or service in the cover letter. The names, addresses, phone numbers, and e-mail addresses of three references should be provided. Applicants should [submit materials through the Interfolio link](https://apply.interfolio.com/143991) (<https://apply.interfolio.com/143991>). For questions about the application process, please contact Dr. Leslie Sharkey at Leslie.Sharkey@tufts.edu.

Cummings School is situated in Grafton, MA on a 600-acre pastoral campus, forty-five minutes west of Boston and next door to Worcester, the second largest city in Massachusetts. A virtual tour of the campus is [available here](#). There is a regional rail service stop adjacent to campus and easy access to cultural and sporting events. The campus is a short drive from beautiful beaches, mountains, and other unique features of New England. The area is a hub of biotechnology and higher education. The K-12 education system is excellent. Housing is readily available close to campus or in any number of surrounding towns. Links to faculty policies and procedures and human resources benefits can be found [here](#).

EEO/AA Policy
