or Tenure System, depending on the qualifications and interests of the candidate. The successful candidate will join an existing medical oncologist, 3 dedicated medical oncology service nurses, 1 medical oncology service coordinator, and a radiation therapist.

The MSU Oncology Clinic is a state-of-the-art facility that was opened in 2005 as part of the Veterinary Teaching Hospital. The hospital provides comprehensive treatment of veterinary oncology patients and is staffed by board certified specialists in anesthesiology, internal medicine, cardiology, dermatology, ophthalmology, diagnostic imaging and interventional radiology, emergency medicine/critical care, neurology, soft-tissue and orthopedic surgery and rehabilitation/sports medicine. It is fully equipped with a Varian Trilogy linear accelerator, chemotherapy pharmacy, chemotherapy administration suite, individual species' ward facilities, radioisotope therapy suites, video-microscopy suite, ultrasound unit, examination rooms, rounds room, and individual office space. In addition, the Veterinary Teaching Hospital offers a complete array of imaging and interventional modalities including 3-D ultrasonography, digital cinefluoroscopy, endoscopy, 16-slice helical CT scanner, 3 Tesla onsite MRI, and access to PET CT for research purposes. Additional support services include primary care and dentistry services and a veterinary social work program. The oncology clinic is supported by the MSU Veterinary Diagnostic Laboratory (VDL) which is one of the largest full service veterinary diagnostic laboratories in the world and contributes to the clinical and research missions of the oncology section through services provided by the clinical and anatomical pathology units, and the veterinary molecular pathology laboratory.

The position is flexible in meeting different work arrangements and lifestyles. The successful candidate's responsibilities will include management of referral cases, supervision and clinical instruction of house officers and students, and a commitment to scholarly contributions in the candidate's area of expertise. Participation in the pre-clinical teaching curriculum as well as contributing to the specialty service leadership are also available. Our [Health Programs \(HP\)](#) and [Tenure System](#) positions are dynamic and generally have a 50-75% clinical appointment for the HP track and 30-50% clinical appointment for the tenure track. Both HP and tenure faculty have equal voting rights, and the main difference between the two is a primary and independently driven research focus is expected for tenure stream faculty whereas a more collaborative research focus for HP faculty is acceptable. For both systems, effort distributions across clinical service, teaching and scholarly activities are negotiable with the Department Chairperson and are amenable to change. Merit evaluations and promotions are based on the faculty member's performance within their assigned duties.

Michigan State University has outstanding college-based and university-wide basic and translational research programs that provide ample opportunity for collaborative research with faculty of the College

of Veterinary Medicine, and with those of the two human medical schools on campus. Additional opportunities for collaboration exist with investigators at the Institute for Quantitative Health Science and Engineering, Precision Health, and a new Center of Excellence in Imaging and Image-Guided Therapies. Such activities are encouraged at both the Departmental and College level, and support is available for grant writing, locating external funding resources, and processing grant submissions. Internal funding opportunities are also available through endowed research funds. The College of Veterinary Medicine has active faculty development and mentorship programs to facilitate career progression.

Michigan State University has two human medical schools in addition to the College of Engineering on campus providing unique and exciting opportunities for collaborative activities. Such activities are encouraged at both the Departmental and College level, and support is available for grant writing, locating external funding resources, and processing grant submissions. Internal funding opportunities are also available through endowed research funds. To support our colleagues, the College of Veterinary Medicine has a strong and active faculty development and mentorship program to facilitate career progression.

### **Diversity, Equity, and Inclusion**

The mission of the college is to be inclusive as we learn, discover, heal, and protect. We, as a College, aim to identify, attract, and retain talented students, faculty, and staff reflective of the diversity of the populations in our state, the nation, and the world. Our academic, scholarly, and service roles, considered separately and collectively, form the foundation of an inclusive culture that is committed to respecting, nurturing, and advancing all individuals.

### **CVM Core Value of Diversity**

We are committed to promoting the principles of equal opportunity and multiculturalism where all individuals are valued, respected, provided opportunity to flourish and open doors in their pursuit of excellence. We encourage and welcome our community to share ideas with us surrounding opportunities to advance diversity, equity, and inclusion. The College's vision is to be the destination for teaching, innovation, care, and service. Six goals, backed by specific strategies, guide our organization as we move forward.
