minimum of two years experience in small animal general practice. An advanced degree and/or advanced training are desirable.

This position will have a 75% clinical commitment and 25% formal teaching commitment. They will contribute to building of a healthy and diverse caseload for clinical learning. This veterinarian will ensure the development of a positive and vibrant team-based clinical service with excellence in client service. They will coach veterinary students as they develop competence and confidence in the key elements of the framework for competency based veterinary education. They will work to incorporate recent veterinary medical evidence-based advances and enhance the skills of undergraduates and technical staff. They must be a strong team player and be able to communicate and collaborate professionally with people of diverse backgrounds.

Salary range: \$74,789 - \$117,629. This position includes a comprehensive benefits package which includes 6 weeks vacation and a dental, health and extended vision care plan; pension plan, life insurance (compulsory and voluntary), academic long term disability, sick leave, travel insurance, death benefits, an employee assistance program, a professional expense allowance, and a flexible health and wellness spending program.
