Rajaratnam School of International Studies, Earth Observatory of Singapore, and Singapore Centre for Environmental Life Sciences Engineering – and various leading research centres such as the Nanyang Environment & Water Research Institute (NEWRI) and Energy Research Institute @ NTU (ERI@N).

Ranked amongst the world's top universities by QS, NTU has also been named the world's top young university for the past seven years. The University's main campus is frequently listed among the Top 15 most beautiful university campuses in the world and has 57 Green Mark-certified (equivalent to LEED-certified) buildings, of which 95% are certified Green Mark Platinum. Apart from its main campus, NTU also has a campus in Novena, Singapore's healthcare district.

Under the NTU Smart Campus vision, the University harnesses the power of digital technology and tech-enabled solutions to support better learning and living experiences, the discovery of new knowledge, and the sustainability of resources.

**School of Biological Sciences, Nanyang Technological University, Singapore**  
**Tenure Track Assistant / Associate Professor in One Health/Veterinary Sciences**

The School of Biological Sciences (SBS), College of Science (CoS) at the Nanyang Technological University (NTU) in Singapore seeks outstanding candidates to apply for a tenure track position at the level of Assistant/Associate Professor with a research focus in the area of One Health and/or Veterinary Sciences.

We encourage applications from candidates whose research integrates biological sciences with veterinary or One Health approaches. Areas of particular interest include host–pathogen interactions, zoonotic diseases, veterinary infectious diseases, immunology, and comparative biomedical research. Candidates who employ molecular, cellular, or systems-level approaches to address challenges at the animal–human health interface are especially encouraged to apply.

SBS is searching for individuals with a well-defined research vision and an outstanding track record of publications in top journals. The successful candidate will establish and maintain an independent extramurally funded research program. The successful candidate is expected to show a strong commitment to departmental undergraduate and graduate mentoring and teaching.

SBS hosts a vibrant research community spanning genetics, molecular biology, cell biology, immunology, and microbiology, providing strong foundations for interdisciplinary collaborations within the school and across NTU. The university offers a highly collaborative research environment with access to a wide range of core facilities supporting advanced biomedical and life sciences research.

The successful candidate will have access to these resources and will be encouraged to establish interdisciplinary collaborations with other Schools and Research Institutes across campus, including those with expertise in medicine, public health, environmental life sciences, and translational biomedical research.

SBS and CoS seeks a diverse and inclusive workforce and is committed to equality of opportunity. We welcome applications from all and recruit on the basis of merit, regardless of age, race, gender, religion, marital status and family responsibilities, or disability.

### Requirements:

The successful candidate will be expected to:

- Develop and maintain a vigorous, externally funded research program in One Health and/or Veterinary Sciences.
- Demonstrate research excellence through high-impact publications and/or translational outcomes.
- Contribute to undergraduate and graduate teaching in biological sciences, veterinary sciences, and/or One Health-related topics.
- Supervise research students and mentor junior faculty, as appropriate.
- Collaborate effectively across disciplines within the School and with external stakeholders in academia, industry, and government.
- Participate in departmental, school, and university service activities.

### Qualifications:

- Ph.D., D.V.M./V.M.D., or equivalent doctoral degree in Biological Sciences, Veterinary Medicine, One Health, or a related field.
- A strong research track record in areas such as host–pathogen interactions, zoonotic diseases, veterinary infectious diseases, or comparative biomedical research.
- Experience with molecular, cellular, and/or systems biology approaches relevant to animal and human health.
- Evidence of independent research capability and potential to secure competitive research funding.
- A commitment to teaching excellence at both undergraduate and postgraduate levels.
- For Associate Professor applicants: demonstrated academic leadership, sustained research productivity, and a proven record of mentoring and educational contribution.

### Emoluments:

Assistant / Associate Professor (Tenure-track) - One  
Health or Veterinary Science  
Nanyang Technological University

The candidate will be offered an attractive compensation package and will be supported by generous start-up funds and laboratory space.

**Application Procedure:**

Interested applicants are cordially invited to submit their applications through the NTU career portal, and a complete application package should include: Cover letter, Curriculum vitae, Publication list, A summary of the future research, teaching and service plans, and The names/emails of three individuals willing to provide letters of reference.

The post applied for should be clearly stated in your application.

If there are any enquiries, you seek more information from Search Chair at SC-SBS@ntu.edu.sg.
