Job Description	

Job Summary

The College of Veterinary Medicine is excited to announce an opening for a **Research Assistant I-IV**. This role supports researchers in planning, maintaining, documenting and/or conducting of research related to the management/control, behavior, and ecology of arthropod vectors (primarily ticks and mosquitoes) and vector-borne pathogens. Additional duties will include laboratory maintenance, inventory maintenance, supply ordering, and other duties as assigned. The selected person for this role will be expected to attend and participate in laboratory meetings.

Essential Functions

- Assists in the development of project proposals, plans and protocols.
- Conducts routine or fundamental experiments, investigations and/or studies related to programs
